# Welcome to Markdown!

This is a simple Markdown file to show you what it can do. You can use Markdown to:

1. Create professional documents to share your work with others
2. Provide daily/weekly progress reports to your employer

There are *many* **formatting** options to use. You can also include images, like this one of the Markdown logo:

Are you ready to get started?

## Typed:

```
# Largest  
## Slightly less large  
### Even less large  
#### Even smaller  
##### Smaller still  
##### Smallest shown here (but you can go smaller!)
```

## Rendered:

Largest

Slightly less large

Even less large

Even smaller

Smaller still

Smallest shown here (but you can go smaller!)

## Typed:

So in this sentence **what you want to bold** is shown **bolded** and *what you want to italicize* is shown in *italics*.

## Rendered:

So in this sentence **what you want to bold** is shown **bolded** and *what you want to italicize* is shown in *italics*.

## Typed:

1. First item
2. Second item
3. Third item

## Rendered:

1. First item
2. Second item
3. Third item

## Typed:

- \* First item
- \* Second item

- + First item
- + Second item

- First item
- Second item

## Rendered:

- First item
- Second item

# Typed:

1. First item
2. Second item
  1. Sub-item
  2. Sub-item
3. Third item
  - \* Sub-item
  - \* Sub-item

# Rendered:

1. First item
2. Second item
  - i. Sub-item
  - ii. Sub-item
3. Third item
  - Sub-item
  - Sub-item

## Typed:

- ```
1. ~~First item~~  
2. Second item  
    1. ~~Sub-item~~  
    2. Sub-item
```

## Rendered:

- 1. ~~First item~~
- 2. Second item
  - i. ~~Sub-item~~
  - ii. Sub-item

# Markdown Cheatsheet

Adam Pritchard edited this page on May 29, 2017 · 96 revisions

This is intended as a quick reference and showcase. For more complete info, see [John Gruber's original spec](#) and the [Github-flavored Markdown info page](#).

Note that there is also a [Cheatsheet specific to Markdown Here](#) if that's what you're looking for. You can also check out [more Markdown tools](#).
